DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The instantly claimed compounds of formula (I), as well as methods for their use, are neither disclosed nor fairly suggested by the closest art of record: Decicco et al (WO 95/29892 11-1995). Decicco teaches (Pages 104-106, Table 1), for example, hydroxamic acid compounds containing a cyclic hydrazide substructure which are isomeric to the compounds of formula (I) instantly claimed. The compounds of Decicco differ from those instantly claimed in that the core chain in his compounds contains only one of the hydrazide nitrogens while that of the instantly claimed compounds contains both nitrogens. Decicco neither discloses nor fairly suggests the structural modification required to produce the instantly claimed compounds from his. The instantly claimed compounds and methods for their use are therefore patentable over the teachings of Decicco, the closest prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
